HEAVY STORM--- CROP DAMAGED

Much Corn and Tobacco in Pond
River Country Reported
Destroyed.

LOWER TEMPERATURE AND FINE
ATMOSPHERE FOLLOWS STORM.

The very heavy rain storm of Sunday afternoon did great damage in the Pond River country, where crops are reported to have been generally drowned out in the lowlands. Much tobacco and corn in the bottoms are said to have been ruined beyond hope of recovery. The rainfall was very heavy here also and was accompanied by much hail in the eastern part of town. The electric disturbance was strong also, though no damage is reported from this cause. The storm came from the east. At Dawson Springs but little rain fell, but there was quite a little wind. At the local weather station only 41 inches of rain fall was recorded, but those who live in the eastern portion of the city say the precipitation was much more there, where it came down in great sheets, but the storm lasted but a short while.

Following the storm the temperature was much lower and yesterday was a most delightful day. Pond river has been bank full for weeks. Minimum temperature for twenty four hours, ending Monday morning, was 63 degrees.

NEW PARDON SYSTEM

Governor Will Only Suspend Sentences
in the Future.

Frankfort, Ky., July 16.—Governor Wilson is through with conditional pardons. In the future he will issue orders respiteing the sentence imposed by the court with the condition that if the terms of the respite are disobeyed the man given his liberty will be returned to the penitentiary. The Governor will use a form which he is now preparing, and the person accepting the suspension of the sentence must sign this order, pledging himself to accept its terms.

The orders of suspension of sentence will be made in triplicates, one copy for the secretary of state's office, one copy for the man in whose behalf the order is issued, and one for the warden of the penitentiary.

If the man who is confined in the penitentiary escapes, it will not be necessary to get a new order for his re-convict in the penitentiary, but the warden will have as his authority for re-convicting the prisoner the original order committing him to the penitentiary.

LICENSE ARE REVOKED
Recent Disorderly Occurrences at That
Place Cause Loss of License to
Saloon Keepers.

Hopkinsville, Ky., July 16.—County Judge Knight yesterday revoked the Saloon licenses of J. A. Pollard and A. A. Ferguson, two of the four Mauington saloonists who were notified some days ago to appear and show cause why their license should not be taken away from them as a result of the recent reports of disorderly conduct and violation of the whiskey laws that have come from Mauington. The revocation becomes effective on July 26.

Since the notice to the saloonists was served, the license of D. A. Wilbert has expired and he has filed notice that he will apply for a new license. W. The Bee Man Says

"You do not count for much unless people know about you. The tree that falls in the forest lies unnoticed, and the rose that blooms far from the beaten path wastes its sweetness on the desert air."

ADVERTISE

If we are indeed here to perfect and complete our own natures, and grow larger, stronger and more sympathetic against some noble career in the future, we had all best bestir ourselves to the utmost while we have the time. —R. L. Stevenson.

Some of the peace officers about here have the meanest dispositions! They will insist on the enforcement of the law, even if it is the local prohibition law.

It is encouraging to read that the State Superintendent of Education has declared the school per capita will be \$4.00 this year, same rate as last year. The census shows 745,785 children in Kentucky.

The Metropolitan Life Insurance Co., New York, has issued a valuable, illustrated pamphlet titled "Directions for Living and Sleeping in the Open Air." This pamphlet will be of interest to all who are concerned in the wider use of fresh air.

It can be said of "Squire Priest" that he is scrupulously fulfilling his pre-election promises to enforce the law and the prohibition law especially. And he is fully supported by all our local peace officers and has the strong backing of public sentiment.

ADVERTISING.

Advertising has just one aim—to increase business. The public has passed the idea that because it is expensive to advertise the heavy advertiser exacts a high profit on his wares. The increased number of sales makes possible his business on a much narrower margin of profit on each sale. To day your wife can buy a pound of Quaker Oats in a neat package at her grocery more cheaply than the same quantity taken from a dirty old barrel in the rear of the store room could have been bought years ago. Yet in the meantime millions have been spent in exploiting Quaker Oats.

Every person cannot be informed of each item the advertiser's store holds, nor the price of it. The advertiser must be content to so impress his name upon the public memory that when in the mood to buy the purchaser will see if the article he wants is included in that advertiser's stock.

The public must couple with the advertiser's business two abstract qualities: low price and high grade. In general, it is safe to say, advertisers are so intent on making the first point stick that they forgot the second. Everyone knows that price is only a relative thing and value is the true test.

Advertising answers its purpose, then, when it so elevates

Danger in Weeds.

With the cutting and burning of the weed crop now before the seeds have time to ripen, a possible epidemic may be averted, many deaths and much sickness and suffering can be avoided. It is an acknowledged fact that hay fever, a spring and summer disease, is the result of weeds, the pollen from the blossoms being blown into the air and inhaled, causing an irritation of the mucous membranes of the throat and lungs and causes hay fever.
